

All Airstream models manufactured between 2000 and 2020 are pre-wired for the new, 6 Stage SUNEXPLORER II, Solar Charge Controller.

- Stay off grid longer and run your generator less
- Retain the factory look and specifications. Atkinson Electronics is the 2000-2020 OEM manufacturer for solar charge controllers.
- Made in the USA 
- Extend the life of your batteries
- Compatible with the 4 most common battery types
 - ➔ Lithium (LiFePO4)
 - ➔ Lifeline AGM
 - ➔ Other AGM/Gel
 - ➔ Standard Lead Acid

For more information contact your local Airstream Dealer.

Are you ready for 6 stage solar charging?

	Soft Charge	Bulk	Absorption	Float	Equalization/ Conditioning	Manual/Auto Boost	Airstream Pre-Wired
New Sunexplorer II 6 Stage	X	X	X	X	X	X	X
Old Sunexplorer II 2 Stage		X				X	X
Old Sunexplorer 2 Stage		X					X
Other 3 Stage PWM/MPPT		X	X	X			

If you currently have the old, factory, 2 stage, relay style controller then the SUNEXPLORER II, 6 stage, solar charge controller is the perfect drop in replacement to get the maximum out of your solar charging system. You can even keep your old display!

Available in 25 Amps or 40 Amps.
